Empower your creative, technical, and commercial teams

Infor Fashion PLM

Choose simple, beautiful, intuitive software

An application that's easy to use is also easy to love. Infor Fashion PLM creates a pleasurable experience that invites users to take full advantage of its power.

Unlock your full potential

You have designers and merchandisers in New York, product developers in Alabama, and production staff in China. How do you ensure that all these teams, in all these time zones, working on many different projects, act as one—while satisfying shorter, faster development cycles?

We've built an entirely new solution, Infor® Fashion PLM, to help ensure you have speed and agility to adjust rapidly to what's happening at retail. This powerful product lifecycle management and collaboration platform can help everyone in your value chain innovate faster, respond more quickly, and act more decisively.

Increase speed and agility

Consistency and accuracy often get lost or compromised when product specifications are transferred to a spreadsheet. Beyond the delays and errors inherent to ad hoc planning, spreadsheets simply lack the functionality and data structure you need to succeed in a fast-moving, consumer-driven industry.

Infor Fashion PLM is a totally new product lifecycle management solution, designed to simultaneously support designers, technical product developers, brand managers, and merchandisers, while serving as a foundation for planning, creating, developing, and sourcing great fashion collections. It's made to help you develop styles more quickly and efficiently, and with more consistent quality, while doing it all on time. You'll also find it easier to convert creative concepts to commercial products rapidly and accurately.

Expand visibility

Gain a better view of real-time information from Infor Fashion PLM's configurable grids, contextual info panes, critical path dashboards, and advanced reporting.

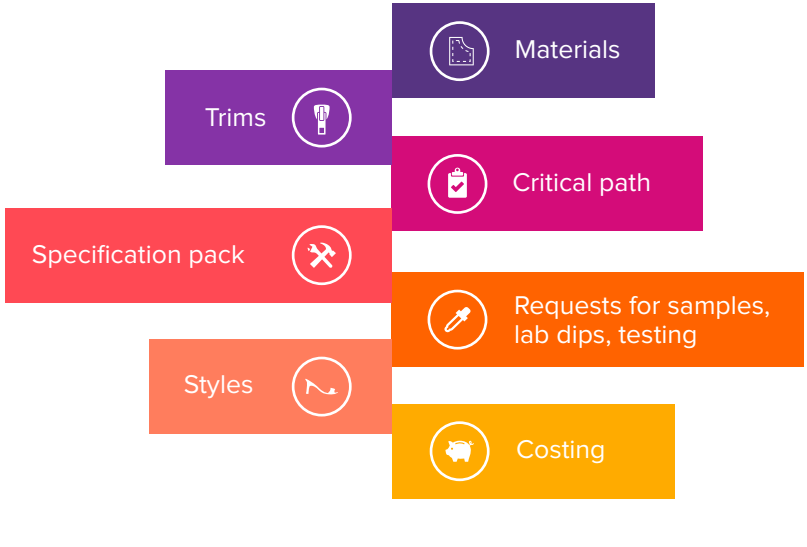
Deliver better products, faster

Infor Fashion PLM is a key component of Infor Fashion, one of the richest, most functionally complete solutions for today's fashion market. It supports your design workflow and new product development cycle, while simultaneously streamlining your overall planning process.

Infor Fashion PLM can serve as the platform and hub for your product development team, so that you can deliver better products to consumers faster while shaving unnecessary costs.



Be more productive

You can work on multiple activities across different collections with Infor Fashion PLM, because you get:

Concurrent processing Speed up your overall product design and production process by using Infor Fashion PLM to manage different phases of the same collection simultaneously, rather than sequentially. You'll be able to shorten the time from concept to consumer, and stay more agile to keep up with the latest consumer trends.

Natural workflow Take advantage of extensive configurability in Infor Fashion PLM to help ensure that every person gets to work the way that works best for him or her. With a personal homepage, role-based, process-driven activities, and a beautiful user experience, you'll be able to speed the workflow in every phase of your business, and improve employee motivation.

Automation of repetitive tasks Save time and direct your attention to designing, developing, and delivering new and better products, and adding value. Let Infor Fashion PLM handle common tasks, so that you can focus on creating innovative and profitable new products. Take advantage of "drag and drop" access to colors, fabrics, trims, and other supplier details to speed your efforts.

Collaboration across teams Unify the efforts of creative, technical, and commercial teams using Infor Fashion PLM's comments feature to streamline the design, development, and sourcing processes.

Accelerate communication

Infor Fashion PLM interacts with your ERP system so that your original design concepts are communicated clearly and executed accurately through every phase of development, production, and distribution to the end customer. As a result, you can reduce lead times, cut costs, and ensure quality.

You'll be able to accelerate your daily activities with Infor Fashion PLM, which helps everyone work more efficiently. Its unique workflow methodology, together with a beautiful user interface and advanced user experience, is intuitive enough for your design team, powerful enough for your product development team, and accurate enough for your merchandisers.

Work the way you live

Infor Fashion PLM is highly configurable, allowing users to save multiple layouts for specific tasks, with access available via the web or mobile apps—anywhere, anytime.
